

Possum Control – Victor No.1 Leg-hold Trap

A lightweight possum trap made from the highest grade metal that is highly suitable for catching and holding possums.

Uses

The most popular trap used by the professional hunter for population monitoring and fur recovery. Made in the USA for targeting opossum, weasel, raccoon, skink, mink, and muskrat.

Why the Victor No.1 Trap?

- Outlasts and out traps all other makes.
- Light weight so large numbers can be carried in the field.
- Made from the highest grade of steel making them durable over time.
- Superior tooling makes this trap an effective possum catcher and few (if any escapes) will occur.
